Dear Graham

NCFE Level 2 Certificate in Understanding Climate Change and Environmental Awareness

I confirm that we recognise and support the above qualification.

Learning Curve Group is a leading education and recruitment specialist providing training programmes to help those looking to develop their workplace skills and employers looking to fill skills gaps. Our portfolio includes apprenticeships, vocational related courses and literacy and numeracy courses and supports 60,000 learners and 4,000 employers a year.

Adding this new qualification to the LCG offer will enable the engagement of new learners. It demonstrates our commitment to continually look at and offer new qualifications in key subject areas and allows us to maintain a competitive edge, while ensuring we continue to support learners in a broad range of subject areas

I believe this qualification is valuable for learners because it will increase their knowledge and understanding around this key subject area. It will support the learner to develop their knowledge and understanding of how we can all play a part in reducing our carbon footprint and the long term benefits this will have for all. It will benefit learners in all sectors and allow those who wish to advance to higher qualifications a chance to take the first step in gaining a nationally recognised level 2.

By signing below I provide my consent for the contents of this letter to be published electronically on NCFE Group websites for the purposes of demonstrating endorsement and understand that quotes could be used in marketing material. I also acknowledge that the contents of this letter may be kept on record by NCFE Group where required for audit, legal or regulatory purposes.

Yours sincerely
