

# NCFE CACHE Level 3 Applied General Certificate in Health and Social Care

603/2914/2

An Applied General is a qualification that is suited to post-16 learners and can be offered as a technical alternative to an A Level. They benefit from applied learning and a mixture of practical external assessment and portfolio work, so learners can evidence what they know through means other than a cumulative assessment. The qualification also has tangible links into the workplace as we develop the content with professionals working in the sector to which the qualification is related.

The Level 3 Applied General Certificate in Health and Social Care is designed for learners who want to study at a higher level and is aimed at learners aged 16-19 in schools and colleges, but is also accessible for learners post-19.

## Qualification content

While studying this qualification, your learners will:

- understand health and social care provision and practitioners
- explore legislation and policies in relation to health and social care
- understand the key elements of growth and development across a human lifespan
- study risk management when empowering individuals in health and social care settings
- consider approaches to health education
- understand human anatomy and physiology.
