

Summary of changes

NCFE Level 2 Diploma in IT User Skills (600/2012/X)

This document summarises the changes in the qualification specification since the last version (Issue 3 October 2016). Please now use the most recent version (Issue 5 November 2017) which is available on the NCFE website.

The qualification specification has been updated to more accurately represent the structure of the qualification and the rule of combination. Units are now split into 3 groups: Group A mandatory units, Group B optional units and Group C optional units.

There has been no change to the content of this qualification.
