Advanced Assessment Materials Overview

T Level Technical Qualification
in Digital Business Services

Purpose

This document details the advanced assessment materials that are available to you for the employer set project and occupational specialism and who these can be shared with.

This document does not list assessment materials such as assessment papers and project briefs which can be accessed by exams officers/administrators once made available and can only be shared with students on the day of the assessment or start of the window. Tutors should not have access to assessment papers or project briefs prior to the assessment date unless specified in the table below.

For the dates that these materials will be released on the portal, please refer to the Key Dates Schedule as dates may vary slightly series on series.

When documents are uploaded to the portal, the user who made the booking will receive an email notification.

Employer Set Project
