Dear Melanie

NCFE CACHE Level 4 Award in Early Years Emotional Wellbeing

I confirm that we recognise and support the above qualification.

School Improvement Liverpool are experts in education, with a firmly established reputation as one of the leading service providers in the North West. Our consultancy, training and professional development enables schools and other settings to be the best they can be. We strive to deliver a range of highly effective, quality assured services to schools and education providers with the aim of supporting and challenging them to achieve the best possible outcomes for children and young people.

This qualification is valuable as it raises the confidence of early years practitioners to prioritise emotional wellbeing to positively influence a child's life outcomes. Unit 1 combines theory and understanding with opportunities to reflect and build on current good practice with regards to emotional wellbeing. Unit 2 covers the skills to further develop and improve emotional wellbeing through a reflective action planning cycle.

A practitioner in an early years setting with this qualification will have the holistic knowledge to support the emotional wellbeing of not only the children who attend the setting, but their families and the staff who work there.

Learners who undertake this qualification will benefit from current and relevant continued professional development. In my opinion, completion of this qualification will prepare learners to progress to a range of higher level qualifications within the Early Years and Childcare sector. This may lead to progression in the workplace to a pastoral role such as Emotional Health and Wellbeing Lead.

This qualification is suitable for anyone aged over the age of 18.
