# Centre and administration fees

## Approval fees

### Centre approval

The centre approval fee only applies to new centres who don't already work with NCFE or CACHE and covers the cost of the approval process and approval for the current session. This includes the cost of the approval review.

Centre approval – schools	£613.50
Centre approval – all other centres	£1222.00

### Annual approval

This fee applies to any active or approved centre and is from the first day of each new session (eg 1 August 2024). This fee gives access to all qualifications in the NCFE portfolio (including CACHE qualifications).

Annual approval – schools	£613.50
Annual approval – all other centres	£1113.00

Centre and annual approval does not apply to EPA.

## Administration fees

### Cancellations

Cancellations are when learners or whole batches of learners are removed from a qualification, not to be re-instated.

If you cancel your learners within 5 working days of registering them, the registration fee will be refunded. After 5 working days you will not have the registration fee refunded. The cancellation fee will apply to both scenarios.

Cancellation of learners (individual)	£22.00
Cancellation of learners (batch)	£28.00

### Withdrawals

Withdrawals are when learners or whole batches of learners are temporarily removed from a qualification. No refund or fee applies and these learners can be unwithdrawn if they continue on the qualification.

### Late registration fees

We've introduced a late registration fee from 1 August 2024 for all of our qualifications (with the exception of V Certs), to ensure we're able to support learners at every stage of their journey and ensure we have the appropriate resources in place to support you during busy assessment periods. This fee applies to any new learner registrations with a learner start date of 1 August 2024 onwards. Please note that for T Level qualifications, late and very late registration fees already were in place and are calculated differently (see page 18).

Late registration fee	10% of the applicable registration and certification fee
-----------------------	--

### Transfer of learners

At times a learner may need to be transferred to a different qualification than the one they are registered on. In this case we'll apply a conversion fee as follows:

- If the new qualification is more expensive than the original qualification, the difference in price will be charged, plus a transfer fee.
- If the new qualification is the same price or lower than the original qualification, the only additional cost is the transfer fee.

The above rules apply only when the learner(s) transferring has done so BEFORE any qualification within the quality assurance (QA) group has been externally quality assured, or, had an external assessment sat. For any transfers completed/processed AFTER any visits or external assessments have taken place, no refund will apply.

Transfer learner between qualification	£22.00
Transfer full batch of learners between qualification	£28.00

## Topping up learners within qualification nests

Learners can be topped up to a qualification that is the same level and subject within the Award, Certificate and Diploma structure.

**Topping up:** In this case, you'll be charged the difference between the original and the topped up qualification, plus the top up fee.

**Topping down:** In this case, there will be no refund of the original registration fee and the topping up fee will be applied

Topping up a single learner	£22.00
Topping up a full batch of learners	£28.00

# End-point assessment (EPA) fees

## Administration fees

### EPA cancellations

If a learner cancels an assessment with more than 24 hours notice, no re-sit cost will apply.

If a learner cancels an assessment with less than 24 hours notice, the re-sit cost will be applied when the assessment is rescheduled. Please refer to the EPA pricing section for pricing per standard/assessment component.

### Transfer of learners

NCFE has a free transfer process which allows customers to switch apprentices that haven't entered EPA, as well as apprentices that have already achieved some elements of EPA with another end-point assessment organisation (EPAO). Further guidance can be found on our Resources Library. Where apprentices have already achieved some elements of their EPA, we would review what elements have been completed and what is outstanding before providing costs on an individual basis.

### Fees

We may charge our partners a fee to cover administrative and/or reassessment costs. If we uphold your enquiry/appeal, we will not invoice you for the associated fee. If the enquiry/appeal is unfounded and/or the grade(s) remain unchanged, we will invoice you for the appropriate fee.
