## Entry guidance

These qualifications are a short introduction for anyone preparing to enter the world of work. They are also suitable for anyone already working who wishes to formalise and further develop their existing experience and skills. These qualifications are also suitable for learners undertaking larger programmes of study in related industries (healthcare, sport etc). In addition, these qualifications provide a basis for those who may wish to progress to further study and development.

There are no specific recommended prior learning requirements for these qualifications. However, learners may find it helpful if they've already achieved a Level 1 qualification.

The Level 2 Award and the Level 2 Certificate are suitable for both pre-16 learners and also learners aged 16 and above.

Centres are responsible for ensuring that these qualifications are appropriate for the age and ability of learners. They need to make sure that learners can fulfil the requirements of the assessment criteria and comply with the relevant literacy, numeracy and health and safety aspects of these qualifications. Learners registered on these qualifications shouldn't undertake another qualification at the same level with the same or a similar title, as duplication of learning may affect funding eligibility.

Registration is at the discretion of the centre, in accordance with equality legislation, and should be made on the Portal.

---

## Progression opportunities

Learners who achieve these qualifications could progress to:

- NCFE Level 3 Diploma in Business Administration
- NCFE Level 3 Diploma in Customer Service
- NCFE Level 3 Diploma in Management
- employment in a wide range of sectors.

They may also be useful to learners studying qualifications in the following sectors:

- business
- customer service
- team leading and management.

Learners can progress from an Award to a Certificate, but centres must carefully consider which qualification they want to register the learner onto, as the registration fee will be applied for both qualifications.

## Qualification dates

Regulated qualifications have operational end dates and certification end dates.

We review qualifications regularly, working with sector representatives, vocational experts and stakeholders to make any changes necessary to meet sector needs and to reflect recent developments.

If a decision is made to withdraw a qualification, we will set an operational end date and provide reasonable notice to our centres. We will also take all reasonable steps to protect the interest of learners.

An operational end date will only show on the Ofqual Register of Regulated Qualifications [register.ofqual.gov.uk](https://register.ofqual.gov.uk) and on the NCFE website if a decision has been made to withdraw a qualification. After this date we can no longer accept learner registrations. However, certification is allowed until the certification end date so that learners have time to complete any programmes of study. The certification end date will only show on the Ofqual Register once an operational end date has been set. After this date we can no longer process certification claims.

# Section 3

## Assessment and quality assurance

## **Assessment and quality assurance**

### **How the qualification is assessed**

Assessment is the process of measuring a learner's skill, knowledge and understanding against the standards set in a qualification.

The NCFE Level 2 Award in Employability Skills and the NCFE Level 2 Certificate in Employability Skills are internally assessed and externally quality assured.

Unless stated otherwise in this qualification specification, all learners taking this qualification must be assessed in English and all assessment evidence presented for external quality assurance must be in English.

---

### **Internal assessment**

Each learner must create a portfolio of evidence generated from appropriate assessment tasks which demonstrates achievement of all the learning outcomes associated with each unit. On completion of each unit learners must declare that the work produced is their own and the Assessor must countersign this. Examples of suitable evidence for the portfolio for each unit are provided in Section 2.

Internally assessed work should be completed by the learner in accordance with the qualification specification. A representative number of assessment hours should be timetabled into the scheme of work. Internal assessment hours must be administered outside of scheduled teaching and learning hours and should be supervised and assessed by the Tutor. Assessment activities can be integrated throughout, although separate from the teaching of the unit and do not have to take place directly at the end of the unit.

Any work submitted for internal assessment must be completed during scheduled assessment hours in accordance with the scheme of work, and must be authenticated and attributable to the learner. The Tutor must be satisfied that the work produced is the learner's own and the learner must declare that the work is their own.

In practice, this means that all of the portfolio of evidence will be completed in normal class time within scheduled assessment hours and kept separate from any teaching and learning hours.

If a centre chooses to create their own internal assessment tasks, they must:

- be accessible and lead to objective assessment judgements
- permit and encourage authentic activities where the learner's own work can be clearly judged

---

### **Supervision of learners and your role as an Assessor**

Guidance on how to administer the internal assessment and the support you provide learners can be found on the NCFE website.

---

## Feedback to learners

Guidance on providing feedback during teaching and learning and each stage of the assessment can be found on the NCFE website.

---

## Presenting evidence

### Written

Written evidence may be presented in word-processed or handwritten form. Audio-visual content (videos, pictures, drawings, audio) may also be used.

Tables, graphs and spreadsheets may be produced using appropriate ICT.

Any copied material must be suitably acknowledged, and quotations must be clearly marked and a reference provided wherever possible to ensure that learner work can be authenticated.

### Recorded

Where audio-visual evidence of multiple learners is used, centres must ensure that each learner being assessed is clearly visible and can be identified by the Quality Assurer.

The recorded evidence should allow the learner to demonstrate the learning outcomes clearly but should only show work relevant to what is being assessed. For example if a performance/participation is done as part of a group, the Quality Assurer will need to be able to see how each learner being assessed has contributed and met the learning outcomes.

To help our Quality Assurers to identify clearly when a particular learner is performing/participating we'd recommend including the following information:

- the exact start and finish times so that the Quality Assurer can go straight to that spot on the tape/recording
- a running order list and a description of each learner
- information about where the performance/recorded evidence took place
- what type of audience they were performing to (if applicable).

Centres must also ensure that the camera and microphone are set up in a suitable place to ensure good-quality audio. This will allow the Quality Assurer to hear both the learner(s) and the Assessor (if applicable).

We have set out an example used for a performance:

### **Test High School**

**Recorded evidence:** starts 4 mins 30 seconds into the recording and finishes at 16 mins 27 seconds.

**Venue:** School hall

**Audience:** Assessors, parents and friends

#### **Band 1:**

Lead singer – Joe Bloggs (brown hair, front of stage)

Drummer – Tom Smith

Guitar 1 – Dan Brown (blonde hair, blue jumper)

Guitar 2 – Mark Jones (brown hair, left hand side)

#### **Performance of XXX:**

Lead male – John Smith

Lead female – Ann Jones

Choir:

Kay Bell (brown hair, back row 3rd from left)

Jane Pattison (blonde hair, back row 5th from left)

Michael Davies (brown hair, front row 3rd from right)

If learners are not clearly identified, NCFE may not be able to quality assure or examine the work.

---

## **Quality Assurance**

### **Internal quality assurance**

Internal quality assurance is the process of ensuring that everyone who assesses a particular unit in a centre is assessing to the same standards. It's the responsibility of Internal Quality Assurers to ensure that Assessors' decisions are sampled and monitored to ensure consistency and fairness. Internal Quality Assurers are also responsible for supporting Assessors by offering advice and guidance.

The Internal Quality Assurer will follow the centre's own sampling strategy in selecting the sample to be internally quality assured. See the guidance on sampling on the NCFE website.

The Internal Quality Assurer provides the vital link between the Assessors and the External Quality Assurer and acts as the centre's quality assurance agent.

---

### **External quality assurance**

External quality assurance of internal assessments is carried out at least once a year to ensure that assessment and grading decisions are in line with required standards. External quality assurance is carried out by External Quality Assurers who are appointed, trained and monitored by NCFE. External Quality Assurers are responsible for monitoring and sampling learners' evidence to ensure that internal assessment decisions are valid, reliable, fair and consistent with national standards. Centres are notified of their External Quality Assurer's contact details on registration of learners with NCFE.
