When it comes to Functional Skills, we can support you from start to finish, with a range of online learning tools and qualifications with remote delivery options. Using our initial skills assessment and diagnostic tools, alongside our full suite of high-quality Functional Skills qualifications, will help to ensure engagement, success and achievement for your learners.

## From diagnostics to success

Our eLearning solutions provide remote learning options and individual learning experiences for every one of your learners, to ensure their success.

### Initial assessment and diagnostics

When supporting learners to achievement, initial assessments and diagnostics are vital. Using the Skills Builder tool will equip you with everything you need to set your learners on the right path, from day one.

Skills Builder uses the One Assessment revolutionary initial assessment software, which allows you to assess your learners' current skills in just 30 minutes, giving you a true understanding of their starting point.

### Map the individual learner journey

Skills Builder gives you understanding of your learners' baseline strengths and weaknesses in English and maths. Using initial assessment data, learners will receive an individual skills plan to help them to progress and will provide the appropriate levels of stretch and challenge to help them improve their attainment overall. Skills Builder incorporates Ofsted and ESFA compliant assessment, detailed skills diagnostics, video tutorials, progression tracking and innovative resources to aid the important skills development required for your learners to achieve.

## Assessment and achievement

NCFE's Functional Skills qualifications provide learners with the essential English and maths skills they require. Supported by fantastic resources, a dedicated Provider Development team, sector leading service times and online, on-demand assessments.

Choose NCFE and you'll benefit from:

- The fastest online results release in the sector (from 6 working days)
- Online assessment available on-demand, 24/7
- Free resit option
- Free automated feedback for online English and maths assessment
- A large number of interactive teaching and learning resources, suitable for both classroom and workplace learning
- A host of sample papers and past live papers, complete with accompanying Chief Examiner Reports
- Support from our in-house Provider Development team who will be delivering CPD sessions, webinars and events throughout the session to support teachers in their English and maths delivery.

### **Anytime, anywhere assessment.**

Our remote invigilation solution for Functional Skills enables your learners to sit their assessments anytime, anywhere.

## Remote invigilation

### **What our customers say**

"We chose to go with NCFE due to the high-quality service offered, and the support has been fantastic, with useful guidance notes and information provided."

**Richard Blower, Functional Skills Manager at Busy Bees Education and Training**

"Our experience of remote invigilation with NCFE has been fantastic. Support and communication from the offset and throughout was great and we really liked the nice, simple guidance that was easy for both learners and staff to follow."

**Ben March, Head of Operations and Major Projects at Runway Training**

"Our learners had a good experience with NCFE's remote invigilation solution and we were able to sit the same number of exams that we'd expect in a typical pre-Covid week. We chose to work with NCFE due to the useful online resources and good communication – the remote invigilation support team was very communicative and helpful."

**Lucy Barnett, Operations Manager at TSP Learn**
